

Why Mediation?

Communication problems arise in all types of relationships.

Each person has different values and a different set of expectations sometimes resulting in disagreements, resentment and friction occurring among family members and/or friends.

Mediation is here to offer a solution.

It's common and even appropriate when families have disagreements about their parents care, handling an estate, making end of life decisions, and other aging issues.

Who We Are

The Iowa Association of Area Agencies on Aging along with Iowa's Six Area Agencies on Aging have partnered with The Iowa Association of Mediators to offer this unique and valuable service to Older Iowans.
